WHO WE ARE

2009

2010

An introduction

Nucleus Mining Logistics (NML) was founded in South Africa in 2010.

2011

2012

At Nucleus we know that collaborative & strategic partnerships are essential to making the necessary advances to solve the challenges facing today's supply chains. Successfully implementing a strong customer focused model is the cornerstone of our long-term relationship with our client.

2013

2014

2015

Nucleus Mining and Africa Logistics is **focused on the process of planning, implementing and controlling the efficient, effective flow and storage of goods, services,** and related information. From point of origin to point of consumption.

2016

2017

Our commitment lies in streamlining and integrating key logistical processes to achieve the dual objectives of reducing overall logistics costs and optimising delivery times. With a focus on excellence, we aim to enhance the efficiency and effectiveness of supply chain operations for our valued clients.

2018

2019

2020

- Successfully implementing a **strong customer focussed model** is the cornerstone of long-term relationships.

2021

- Nucleus is the leading independent **supply chain management & cross border logistics management group** in Southern, Eastern and Central Africa.

2022

2023

- We fully understand that focus on working together with the client on transformation efficiencies, thus redesigning not only the supply chain but sometimes also the **overall business process and internal organisation.**

2024

WHAT WE DO

NML is an independent, privately owned, leading logistics company with worldwide capabilities obtained through a network of overseas agents as well as key hubs. This enables our customers to have a complete global reach to service their vital business needs.

LOGISTICS ANALYSIS

Integration of inventory, facility location, transportation, packaging activities, and informational flow for the purpose of managing an effective physical movement of outbound and inbound goods and services in a competitive environment.

REPORT ANALYSIS

The process of exploring data and reports in order to extract meaningful insights, which can be used to better understand and improve YOUR business performance.

PROJECT MANAGEMENT

With our ability and experience we can manage your complete Logistics and entire Supply Chain, cost effectiveness, streamlined systems and logistics delivery consistency.

LOGISTICS CONSULTING

PROCUREMENT

Often clients are faced with excessive expenditure where import duties are calculated per PO and invoice submitted (during the license application process). This expense as well as being grappled with massive paperwork burdens; stemming from PO's, invoices, inspections, license applications, and export/import processes compounds to administrative challenges. These issues collectively create inefficiencies, increase costs, delays and hinder smooth operations.

NML solve this via a streamlined PO management and expediting process which improves efficiencies, saving cost and time. Our solution has been implemented, tested and we have proven track record with massive success.

MULTI MODAL TRANSPORT

Our extensive network of Logistics partners globally we can get your cargo where it needs to be:
Air / Road / Ocean and Rail.

TAILORMADE SOLUTIONS

At NML we are not only using terms such as "tailormade solutions" as smart jargon, we put skill, knowledge and expertise together to create a tailormade solution that does not only fit our clients needs, but are also innovative, effective and based on best proven practices in the industry.

SCOPE OF SERVICE

Documentation &
Information
Management

Purchase Order
Management &
Expediting

Facilitation of

- 1kg - 100ton Options
- Perishable Cargo
- Dangerous goods
- High value cargo
- Routings schedules and rate comparison
- Cost-effective solutions
- Air Freight Charters

TOM

TRANSPORT & OPERATIONAL MANAGEMENT SYSTEM

TOM is a cutting-edge system that utilizes QR code scanning technology to revolutionize shipment tracking and event management. With TOM, you gain real-time visibility into your cargo's journey, from origin to destination. NMLs' TOM system revolutionizes visibility and control in Mining Logistics.

Benefits of TOM >>>

Enhanced Visibility: Scan QR codes at key points throughout the journey (e.g., arrival at customs, offloading) for instant updates on your shipment's location and status.

Improved Efficiency: TOM streamlines data collection and communication, minimizing delays and errors.

Increased Transparency: Gain complete transparency into your supply chain, allowing for informed decision-making.

Reduced Risk: Proactive tracking helps identify potential issues and allows for timely intervention. TOM transforms the future of Mining Logistics.

GHANA OFFICES

Resilience Limited is part of the Nucleus Mining Group with a footprint spread throughout Africa and the rest of the world. This means that no matter where your cargo comes from or goes to in the world, Resilience Limited will tailor our service to suit your logistics needs.

EAST AFRICA

Mozambique, Kenya & Uganda

NML has partners and agents with whom we have been with for over 10 years. Together we simplify the daunting adventure of logistics operations in East Africa, with long-standing and re-occurring business ventures in Kenya and Uganda. Additionally, the rest of East Africa is also familiar territory for our team.

Closer to home in Mozambique, NML has been the trusted partner of choice for many years of esteemed business, in the mining industry and others.

BOTSWANA

As the Central Africa and Copperbelt corridor has been our playground for many years, it is worth mentioning that we also have solutions into Botswana and Namibia.
